

TOP 10 HIGH END GARAGE DOORS

Written by [Tyler Reed](#) on August 15, 2014

The garage door isn't often thought of as the centerpiece of a home, but it can really make a house shine. Here are 10 of the best options* for high end garage doors, each with customizable options to really make your garage door the perfect complement to your home's design:

TRENTO BY SILVELOX

Designed and manufactured in Italy, the [Trento by Silvelox](#) garage door has a unique two-tier overlap system that takes up less space than traditional garage doors. Watching it open and close is a pretty amazing experience in itself, and this door will definitely add that distinctive *Italian style* to any home.

HÖRMANN ROLLMATIC GARAGE DOOR

Hörmann is based out of the UK, and they're proving to be a world-wide innovator in garage door technology. How do they achieve this? By paying close attention to the details, like in the [RollMatic garage door](#), which was designed for extremely quiet operation and easy maintenance.

AVANTE COLLECTION FROM CLOPAY

Combining glass with a sturdy aluminum frame gives the [Avante garage door from Clopay](#) a distinctly modern look. The glass can be customized to allow different levels of light through, and the frame is reinforced and designed to last.

OVERHEAD DOOR SIGNATURE CARRIAGE COLLECTION

Get the look of a carriage house with this custom wood sectional garage door. The [Signature Carriage Collection from Overhead Door](#), a company out of Texas, combines fancy woodworking with reliable garage door technology.

BP GLASS GARAGE DOORS, HURRICANE LINE

If you worry about a glass garage door withstanding hurricane-strength winds, this garage door from [BP Glass Garage Doors](#) is approved by Miami-Dade County in Florida for hurricane requirements. In addition to being extremely durable, their elegant glasswork is unique and customizable to any situation.

ATHENA BY MARTIN GARAGE DOORS

Another garage door that combines glass and metal, the [Athena model by Martin Garage Doors](#) excels in its simple, modern design and durable construction. There's also plenty of room for customization of colors, transparencies, and dimensions.

WAYNE DALTON CLASSIC STEEL GARAGE DOOR COLLECTION

One of the more economical options on this list, the Classic [Steel Garage Door Collection from Wayne Dalton](#) has a traditional design with extra options for windows and customizable metalwork.

EDEN COAST COMPOSITE GARAGE DOORS

If you're looking for a more eco-friendly garage door, [Eden Coast Composite Garage Doors](#) are made from a composite material that is lightweight, durable, and greener than other building materials. They don't skimp on design, though—they allow for endless customization to fit any project.

DYNAMIC GARAGE DOOR ECO-ALTERNATIVE COLLECTION

Another green alternative, [Dynamic Garage Door's Eco-Alternative Collection](#) can achieve the look and feel of authentic hard wood and steel, but in a more environmentally friendly package. The results are stunning—eco-friendly never looked so good!
